

TUG 1

Tactical Unconstrained Growth

Investment Growth

Time Period: Since Common Inception (1/5/2018) to 2/28/2019

Currency: US Dollar

TUG 1 - Monthly Returns

	Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec	Year
2019	-2.23	0.28											-1.96
2018		-3.86	-0.87	-2.49	2.76	1.24	1.02	5.80	-1.12	-8.99	1.08	5.96	

Performance is calculated by taking an asset-weighted average of all accounts assigned to a model for a given period and reflect the reinvestment of dividends and other account earnings. The gross performance figures do not include management expenses, also known as investment advisory fees. However, all other expenses such as transaction charges, internal fund expenses and other custodial charges are included. Net performance is based off of gross performance, but has been reduced by investment advisor fees. The combined investment advisory fee ranges from 0 - 2.0%. All economic and performance information is historical and not indicative of future results.

Disclaimers:

Fund Architects, LLC. is registered as an investment advisor. The firm only transacts business in states where it is properly registered, or is excluded or exempted from registration requirements. Registration as an investment advisor is not an endorsement of the firm by securities regulators and does not mean the advisor has achieved a specific level of skill or ability.

Performance is calculated by taking an asset-weighted average of all accounts assigned to a model for a given period and reflect the reinvestment of dividends and other account earnings. The gross performance figures do not include management expenses, also known as investment advisory fees. However, all other expenses such as transaction charges, internal fund expenses and other custodial charges are included. Net performance is based off of gross performance, but has been reduced by investment advisor fees. The combined investment advisory fee ranges from 0 - 2.0%. All economic and performance information is historical and not indicative of future results.

Different types of investments involve varying degrees of risk, and there can be no assurance that the future performance of any specific investment, investment strategy, or product made reference to directly or indirectly in this brochure, will be profitable, equal any corresponding indicated historical performance level(s), or be suitable for your portfolio. Moreover, you should not assume that any discussion or information provided here serves as the receipt of, or as a substitute for, personalized investment advice from Fund Architects or any other investment professional. Further, the charts contained herein should not serve as the sole determining factor for making investment decisions.

The TUG 1 portfolio trades inverse ETF's, which contains additional risks. Please read the Leverage Disclosure Brochure carefully before investing to learn more about the risks of trading leveraged and/or inverse products.

To the extent that you have any questions regarding the applicability of any specific issue discussed to your individual situation, you are encouraged to consult with Fund Architects. All information, including that used to compile charts, is obtained from sources believed to be reliable, but Fund Architects does not guarantee its reliability. Information pertaining to Fund Architects' advisory operations, services, and fees is set forth in Fund Architects' current disclosure statement, a copy of which is available from Fund Architects upon request. Fund Architects managed accounts may own assets and follow investment strategies which cause them to differ materially from the composition and performance of the benchmarks which have been used. These benchmarks are shown because they are widely known indexes that represent broad asset classes and/or allocations that are typically found in varying weights in Fund Architect's portfolios. These indexes are shown simply as references and not because Fund Architects strategies are, or are likely to become, representative of those specific indexes' past or expected performance. You cannot invest directly in any of these benchmarks.

Asset allocation and diversification will not necessarily improve an investor's returns and cannot eliminate the risk of investment losses.
